

# COMMUNITY

## Searcy schools mobile app gets new look

Searcy Public Schools are excited to announce that we have a brand-new look and are now mobile!

We want to invite all our community members, parents, students and staff to access our new and improved website at [www.searcyschools.org](http://www.searcyschools.org). For downloading the app, search for Searcy School District at the Apple Store, or get it at Google Play.

The mobile app will provide the most up-to-date information, text messaging notifications, upcoming events and many other features. Our

**BETSY BAILEY**  
SCHOOL OF THOUGHT

new website and app are created by Apptegy out of Little Rock. The website includes news, events and live feed sections at the district and building levels as well as all the pertinent information for staff,

dining and state-required documents. Parents and community members will be able to utilize athletic schedules for their convenience, and all scores will be updated after completion of the sporting event.

Sarah Blake, Ahlf Junior High School library media specialist and a Searcy School District parent, remarks of the new app, "The mobile app will make it much easier to stay connected and keep up with all of the events and activities at Searcy Schools. I am excited about this new de-

velopment."

We want to remind our patrons that we are also on Facebook and Twitter. We hope that these new technological upgrades will increase community engagement and provide easier access to our schools.

For more information or questions regarding the website or mobile app, email me at [bbailey@searcyschools.org](mailto:bbailey@searcyschools.org).

**McRae Elementary School kindergarten students Lily Smith, Sloan Powell, Cade Huddy Cash Rath, Brandon McCollough and Elliott Mershawn** assist Dr. Anne Marie Cason and dental assistant Lori Kendrick, from Searcy Dental Associates, in demonstrating the best way to floss. The presentation was part of a special unit for National Children's Dental Health Month.

## McRae Elementary paid visit by dentist

Dr. Anne Marie Cason, with Searcy Dental Associates, recently visited McRae Elementary School during a unit on dental hygiene.

Cason talked to 138 kindergarten students as part of the celebration for National Children's Dental Health Month.

"Bacteria can build up on our teeth during the day and make them feel fuzzy," Cason told the students. "Then, as we eat, the bacteria turn those sugars into acids, which causes cavities. It is so important for us to brush

our teeth in the morning and at night so we will have healthy teeth that last all of our lives."

Cason and dental assistant Lori Kendrick showed the students where cavities form and demonstrated the best way to brush and floss. Cason also talked to the students about the hidden sugars in soda, fruit juice and sports drinks.

Kindergarten teacher Tina Moody said her students soaked in the information and asked questions once they returned to class.

"I love how Dr. Cason was able to keep the students engaged by allowing them to take part in the presentation," she said. "It was easy for them to understand, and the costumes were a great representation. The students were interested in learning about the amount of sugar their favorite drinks contain. In fact, one of my students asked, 'Mrs. Moody, how much sugar is in that coffee on your desk?'"

Last year, Searcy Dental Associates assembled 25 Teacher Resource Kits for

elementary school teachers in seven Searcy-area schools. Teachers use the kits throughout February to teach units on dental health.

Each kit contains activity sheets for students to color and keep track of brushing; a large model of teeth and a toothbrush to demonstrate the right way to brush; and a mouthguard to emphasize the importance of protecting teeth while playing sports.

For more information or to request a kit, call (501) 268-3666.

# LADIES NIGHT

## Wednesday 4pm - Close

### 1/2 Priced LADIES Entrees
